<https://www.linkedin.com/in/natalia-kaczy%C5%84ska-9673173a3/>

Since 2023, I have been learning programming, starting from the basics (C++, HTML, PHP) and then developing towards Python and AI. I develop projects in the areas of chatbots, RAGs, and ML models. My background is in chemistry, which taught me data analysis and experimental approaches. I'm looking for my first commercial job where I can develop my AI/ML skills.

KEY PROJECTS

hair salon + chatbot AI

Appointment booking for a hair salon (via form or chatbot). The admin panel allows managing reservations and adding/removing selected hairdressers.

Used technologies: **FastAPI**, **SQLAlchemy**, **OpenAI API** (w tym tool calling), **pgAdmin**

Overview: <https://natalia-kaczynska.profesjonalnyprogramista.pl/en/salon-fryzjerski-z-chatbotem-recepcjonista/>

chatbot RAG for web shop

Chatbot helps answer customer questions.

Used technologies: **AWS Amazon** (Claude Haiku Bedrock model, S3 (model amazon.titan-embed-text-v2:0))

Overview: <https://natalia-kaczynska.profesjonalnyprogramista.pl/en/elementor-strona-4737/>

diary + "coach/psychologist" AI

An application where the user can add notes about their problems. Each note features an expandable chatbot designed to provide assistance and suggestions.

Used technologies: **REST API**, **NodeJS**, **React**, **API modelu Gemini 1.5 Flash**, **PostgreSQL**

Overview: <https://natalia-kaczynska.profesjonalnyprogramista.pl/en/aplikacja-pamietnik-chatbot-ai/>

library + chatbot AI

A small library where a user, by talking to an AI chatbot, can get a suggestion on which book to choose based on their current mood.

Used technologies: **REST API**, **NodeJS**, **React**, **API modelu Gemini 1.5 Flash**, **PostgreSQL**

Overview: <https://natalia-kaczynska.profesjonalnyprogramista.pl/en/aplikacja-biblioteczna/>

budget app with MVC

An application for managing and controlling personal finances with an AI advisor, with an MVC framework written from scratch.

Used technologies: **PHP**, **JavaScript**, **CSS** (including **Bootstrap**, **flexbox**), **phpMyAdmin**

Overview: <https://natalia-kaczynska.profesjonalnyprogramista.pl/en/elementor-4491/>

budget app (C++)

An application for managing and checking financial balance.

Overview: <https://natalia-kaczynska.profesjonalnyprogramista.pl/en/aplikacja-budzetowa-w-c/>

SKILLS

- English B2
- Linux support (basics)
- knowledge of SOLID principles
- programming in accordance with clean code principles

WORK EXPERIENCE

Specialist

Central Laboratory of Radiological Protection
12/2022 - Current

Testing the concentration of radioactive plutonium in food, bottom sediments; uranium in water, aqueous sediments and urine using the radiochemical method

EDUCATION

Cardinal Stefan Wyszyński University
10/2018 - 07/2021

Chemistry bachelor's degree

TRAINING

Project "Przyszły Programista"

(<https://przyszlyprogramista.pl/>)
since 09/2023

KNOWN TECHNOLOGIES

- PHP
- SQL
- Python, FastAPI
- Rest API
- NodeJS
- JavaScript
- HTML
- CSS
- React
- SQL
- pgAdmin (postgresql)
- MySQL
- SQLAlchemy
- LLM
- RAG
- WordPress
- AI agents frameworks (LangGraph, CrewAI, OpenAI Agent SDK, AutoGen)
- LoRA
- libraries pandas + sickit-learn for basic ML models (in it RandomForest)
- PyTorch basics
- basics TensorFlow
- C++
- Git
- AWS Amazon
